

# JHON REY BAÑAGA

## SOFTWARE TESTER | MANUAL QA, FUNCTIONAL & DATABASE TESTING

Paniqui, Tarlac, Philippines • iamjhondrey@yahoo.com  
linkedin.com/in/panvo • github.com/panvo • jrb-portfolio.netlify.app

### PROFESSIONAL SUMMARY

Software Tester with 9+ years testing complex enterprise web applications in the law-enforcement and forensic domain, where accuracy, traceability, and data integrity are mission-critical. Deep expertise in manual, functional, regression, exploratory, and database testing, with strong SQL-based backend validation across Microsoft SQL Server and Oracle. Skilled in requirements analysis, test-case design, and full defect-lifecycle management within Agile/Scrum teams; consistently recognized internally as a top-performing QA professional. Now extending that foundation into AI-assisted QA tooling as architect of TestOps Hub, a 16-module AI-native QA platform.

### CORE SKILLS

**Testing:** Manual, Functional, Regression, Exploratory, Smoke, Sanity, GUI, Black-Box, Gray-Box, Database Testing  
**Analysis & Management:** Requirements Analysis, Test Case Design, Test Planning, Requirements Traceability, Defect Lifecycle Management, Test Documentation  
**Databases & SQL:** Microsoft SQL Server, Oracle SQL Developer, SQL/T-SQL/PL-SQL, Backend & Data Validation  
**Tools & Methods:** Trac, TortoiseSVN, SharePoint, Agile / Scrum, SDLC, Technical Writing  
**Build & AI:** React, JavaScript, Supabase, Git/GitHub, Prompt Engineering, AI-Assisted Testing

### PROFESSIONAL EXPERIENCE

#### Austin Alba Consulting, Inc.

Software Tester

Makati City, Metro Manila

July 2017 – Present

- Consistently the highest-throughput tester on the QA team, personally covering 25–30% of all QA-bound tickets—fast and accurate, sustained over the past 5 years.
- Hold one of the lowest defect-escape rates in the QA team among the fewest tickets returned for client-side issues after release—a consistent record of first-pass quality.
- Analyze functional specifications, business requirements, and change requests, then design, maintain, and execute functional, regression, exploratory, smoke, sanity, GUI, black-box, gray-box, and database test suites for enterprise web applications.
- Validate backend data, transactions, and business rules with SQL across Microsoft SQL Server and Oracle, catching data-integrity defects before release.
- Partner with developers and stakeholders to reproduce, isolate, and verify client-reported defects through the full lifecycle—authoring test data, SQL scripts, traceability records, and technical documentation.
- Support mission-critical law-enforcement and forensic enterprise workflows deployed across multiple states and countries, ensuring rigorous security, data integrity, and dependable system behavior.

### SELECTED PROJECTS

#### TestOps Hub – Internal QA Productivity Platform

2026 – Present (Live, continuously enhanced)

- Conceived, designed, and built with AI assistance a 16-module, AI-native QA platform that centralizes test analysis, design, documentation, traceability, knowledge management, and repetitive QA workflows.
- Engineered 51 automated quality gates and 105 row-level security policies for per-user data isolation, plus a retrieval-augmented knowledge engine measured at 100% top-3 answer accuracy on a golden question set.
- Delivered decision-table, equivalence-partitioning, boundary-value and state-modeling tools, AI-assisted test generation & review, delivery tracking, and AI-usage cost analytics on React, JavaScript, SQL, Supabase, and Git/GitHub, resolving complex enterprise QA bottlenecks.

#### Faculty Evaluation & Student Grading System (Capstone)

Sep 2016 – Dec 2016

- Built a web-based system for Interworld Colleges Foundation Inc.; contributed to requirements analysis, functional & system testing, database validation, usability testing, and documentation.

### EDUCATION

#### Tarlac State University

Bachelor of Science in Information Technology

2013 – 2017

Cum Laude | GWA: 1.73

- **Honors:** Academic Excellence Award (2015–2017), Dean's List (2014–2016).

### LICENSES & CERTIFICATIONS

- **Civil Service Eligibility (Presidential Decree No. 907)** – Civil Service Commission (Nov 2019)
- **Security & Privacy: Privileged Role** – Peak Performance Solutions (Apr 2026 – Apr 2027)
- **Agile Testing, Test Automation Foundations, SDLC** – LinkedIn Learning (Nov 2023)
